KANDARP MATHUR

AI Product Manager & Startup Founder | Senior Product Owner | Agentic AI & GTM Strategy

Ahmedabad, India | **mathurkandarp@gmail.com** | +91 810 990 1136 | linkedin.com/in/kandarpmathur14 | github.com/mentor-km

PROFESSIONAL SUMMARY

AI Product Manager, Senior Product Owner, and 0-to-1 Startup Founder with 11+ years of progressive technology experience, specializing in enterprise Agentic AI platforms, customer discovery, and commercial product launches. At AltaDX, steer end-to-end product definition, client discovery, and multi-pod delivery for OMAP®, scaling it from a single Concierge Agent into a commercial suite of 11+ autonomous digital agents (including Feedback and Yield Agents, with the ongoing BYOA initiative) for enterprise fitness and wellness operators across 4 delivery pods. Founder of Round1 (AI voice-interview screening with 153+ client interviews conducted) and Analystbychance (career transition mentorship). Proven at driving customer discovery, GTM launch readiness, PRDs, prompt architectures, RAG guardrails, and continuous sprint delivery adding high-impact features across all agents.

CORE COMPETENCIES

- **AI Product Management & LLM Systems:** Agentic AI Workflows, Retrieval-Augmented Generation (RAG), Evaluation & Scoring Guardrails, Anti-Hallucination Controls, Human-in-the-Loop Design, Voice AI Pipelines (STT/TTS), Prompt Engineering.
- **Product Strategy, Discovery & GTM:** GTM Strategy & Commercialization, Customer Discovery & Client Feedback Loops, Market Research, Problem Framing, PRDs & Functional Specs, User Journey Mapping, MoSCoW Prioritization, Roadmap & Backlog Ownership, MVP Scoping, Release Marketing, KPI Frameworks.
- **Engineering Leadership & Agile Delivery:** 4-Pod Multi-disciplinary Coordination (25+ Engineers, BAs, QA, Data/RPA), Sprint Planning & Velocity Management, Capacity Planning, UAT & Regression Gates, Structured Code Freeze, Release Readiness, Jira Automations.
- **Technical Fluency & Tooling:** Jira, Jira Product Discovery, Confluence, Slack Workflows, Cursor, Claude Code, GitHub, Next.js, TypeScript, Supabase (PostgreSQL, pgvector), OpenAI, Deepgram, ElevenLabs, SQL, Power BI, Snowflake, Databricks.

PROFESSIONAL EXPERIENCE

Product Owner & Project Manager, OMAP® | AltaDX | *Ahmedabad, India* | *Jun 2025 – Present (Ongoing)*

- **Platform Leadership & Vision:** Own end-to-end product definition, GTM alignment, and continuous delivery for OMAP® (Outcomes Micro Agents Platform), an enterprise agentic AI platform enabling fitness and wellness businesses to deploy and configure digital agents for operational workflows.
- **Portfolio Expansion (11+ Agents & BYOA):** Evolved OMAP® from an initial Concierge Agent into an expanding portfolio of 11+ distinct digital agents (Concierge, Playbook, Collections, Sales, Receptionist, Member Audit, Click2Save, No-Show, Chargeback, Feedback Agent, and Yield Agent), while spearheading the ongoing BYOA (Build Your Own Agent) initiative.
- **Client Discovery & Feedback Loops:** Engage directly with enterprise clients and club operators for discovery interviews, requirement scoping, and feedback loops; translate operational pain points into high-value product capabilities and release notes for ongoing adoption.
- **Continuous Sprint Feature Delivery:** Drive iterative product development by scoping and releasing new features across all agents every sprint cycle, partnering with engineering leads to convert client needs into Jira-ready user stories and acceptance criteria.
- **Cross-Functional Orchestration:** Direct delivery across 4 pods and a 25+ person multidisciplinary team (2 BAs, 3 QA, 2 leads, developers, AI engineers, data engineering, RPA); manage capacity planning and maintain product backlogs 3 sprints ahead.
- **PRDs, Prototyping & Governance:** Define agent behaviors, user journeys, setup wizards, and business rules; author detailed PRDs and clickable HTML prototypes to drive stakeholder alignment, standardizing intake via MoSCoW prioritization in Jira Product Discovery.
- **Metrics Hygiene & Delivery Predictability:** Established release predictability through structured code freezes, automated UAT, and tightened sprint reporting by separating QA defects from new commitments; honored with Leadership Award (Q3 2026) and two Team Excellence Awards.

Business Analyst | KTek Resourcing | *India* | *Jan 2019 – Mar 2025*

- **Enterprise Systems & Requirements:** Led requirements elicitation, solution architecture, and delivery coordination for recruitment management systems, external ATS integrations, and enterprise operational reporting pipelines.
- **Process Optimization & Automation:** Partnered with cross-functional global stakeholders to author functional specifications, user stories, and acceptance criteria; boosted candidate onboarding efficiency by 30% through workflow automation and feedback loop integration.

Reporting Analyst | Wealth IT Global | *India* | *Jan 2014 – Dec 2018*

- **Analytics & BI Automation:** Automated enterprise performance reporting and executive dashboards using SQL, Power BI, and Excel; eliminated redundant workflows to cut manual reporting effort by 40% across business units.

Corporate Trainer / Analyst | Qpid Outsourcing | *India* | *Jun 2013 – Dec 2013*

- **Process Documentation & Training:** Authored operational standard operating procedures (SOPs) and facilitated cross-functional training workshops for quality assurance and new-hire technical onboarding.

FOUNDER EXPERIENCE & SHIPPED AI PRODUCTS

Founder & Product Manager | Round1 (round1.in) | *Global / India | Nov 2025 – Present*

- **Product Definition & Commercial Validation:** Conceived, architected, and shipped an AI voice-based first-round interview screening platform with adaptive, JD-led interviews and automated recruiter debrief reports (recommendations, skill ratings, transcripts, integrity signals, and PDF).
- **Enterprise Usage & Client Traction:** Achieved validated product adoption with an enterprise staffing client completing 153+ interviews over three months; designed credit-based monetization ($49–$399/mo, rollover, automated refunds).
- **Scoring & Integrity Guardrails:** Engineered rigorous evaluation guardrails: 80/20 technical-to-communication scoring weights, minimum-answer gates, and recommendation clamps where integrity signals constrain but do not penalize unfairly.
- **Voice Infrastructure & Mobile Reliability:** Eliminated candidate drop-off by migrating speech recognition from browser Web Speech API to server-side Deepgram streaming and rebuilding mobile-first web rooms for phone and Safari candidates.

Founder & Lead Mentor | Analystbychance (analystbychance.com) | *India | Ongoing*

- **Career Mentorship Platform:** Founded a 1-on-1 career transition mentorship initiative guiding recruiters, HR, and staffing professionals into Business Analyst, Scrum Master, and Product Owner roles without requiring prior coding.
- **Curriculum & Mentee Outcomes:** Structured a guided 3–5 month curriculum (modules 01–20), 1-on-1 coaching, mock interviews, and placement support, successfully mentoring 50+ career switchers into tech product roles.

INDEPENDENT AI PRODUCT BUILDS & WORKING PROTOTYPES

- **Chirppy | AI Real Estate Lead Assistant (getchirppy.com) — 2026:** Shipped demo-ready AI chatbot MVP for Indian real estate developers combining brochure-grounded answers, Hinglish conversations, lead qualification, EMI calculations, and visit scheduling. Designed strict RAG retrieval rules (pgvector + Claude Haiku) preventing invented pricing/RERA claims, and resolved multi-tenant security vulnerabilities following a code audit.
- **Ask Mandy | Voice Mock Interview (askmandy.us) — 2026:** Designed frictionless no-account voice mock interview with role-based booking and ₹99 UPI checkout; engineered real-time speech processing, time-phased question difficulty progression, and scoring confined strictly to questions answered.
- **Nivesh Pustika | Trading Journal (niveshpustika.in) — 2026:** Built free trading-journal PWA for Indian market traders with rupee P&L, F&O lot-size calculations, and daily sync of ~98,000 Zerodha Kite instruments, hardened with Cloudflare Turnstile bot protection and OTP abuse controls.
- **Tryfunzo | QR-Based Multiplayer Table Games (tryfunzo.com) — In Development:** Developing ad-free, QR-based multiplayer table-games web app for restaurants (no app/login required); defined product vision, diner/restaurant journeys, clickable prototypes, and Next.js/Supabase foundation.

EDUCATION & CERTIFICATIONS

Certifications:

- **AWS Certified AI Business Strategist** — Amazon Web Services
- **Salesforce Certified AI Associate** — Salesforce
- **Certified ScrumMaster (CSM®)** — Scrum Alliance
- **SAFe® 6 Product Owner / Product Manager (POPM)** — Scaled Agile, Inc.
- **Registered Scrum Basics™** — Agile Education Program

Education:

- **Product Management with Gen and Agentic AI** — BITSoM–Masai (Pursuing, 2026)
- **Bachelor of Engineering (B.E.), Mechanical Engineering** — Rajiv Gandhi Prodyogiki Vishwavidyalaya (RGPV), 2009–2013
